CHECKLIST

Radiator furniture layout checklist

- [ ] Measure your radiator width and depth and mark it on the floor with tape
- [ ] Measure the depth of sofas and chairs that will sit near the radiator
- [ ] Test the walkway width between furniture pieces by walking through
- [ ] Check that curtains can close without draping over the radiator
- [ ] Photograph the current layout before moving anything heavy
- [ ] Live with tape outlines for a few days before committing to the new arrangement
