CHECKLIST

Dining Table Rug Sizing Checklist

- [ ] Measure your table length and width at the widest points
- [ ] Pull a chair out to sitting position and measure clearance needed
- [ ] Add twice the clearance measurement to table dimensions
- [ ] Mark the calculated rug size on the floor with tape
- [ ] Set the table and chairs in position and test chair movement
- [ ] Check that the rug footprint leaves space between the rug edge and walls
- [ ] Adjust tape outline if chairs catch on the edge or pathways are blocked
- [ ] Match rug shape to table shape for balance
- [ ] Choose a low-pile or flatweave rug for easier chair movement
- [ ] Add a rug pad to prevent shifting and protect the floor
