CHECKLIST

Damp Room Wallpaper Checklist

- [ ] Check how long condensation stays on the walls after steam
- [ ] Choose vinyl-coated or non-woven wallpaper rated for moisture
- [ ] Keep wallpaper away from direct splash zones
- [ ] Wash and prime walls with a moisture-blocking product before hanging
- [ ] Apply paste formulated for vinyl that contains fungicide
- [ ] Seal edges where wallpaper meets tiles or fixtures with clear sealant
- [ ] Wipe wallpaper dry when condensation settles on it
- [ ] Ventilate the room thoroughly after showers and cooking
