CHECKLIST

Making a rental yours: a checklist for moves that leave no trace

- [ ] Pull furniture away from walls to create zones that suit your routines
- [ ] Add a large rug to anchor seating and introduce colour underfoot
- [ ] Replace ceiling lights with lamps positioned where you sit in the evening
- [ ] Bring in freestanding storage that breaks down when you move
- [ ] Layer throws and cushion covers over landlord furniture
- [ ] Introduce plants in pots that suit your style rather than the flat's
- [ ] Choose portable pieces with standard dimensions that work in other spaces
