CHECKLIST

Faded Chair Fabric: Diagnosis and Action Checklist

- [ ] Test a hidden area with a dry white cloth to see if grime lifts
- [ ] Compare the top and underside of the seat for colour difference
- [ ] Vacuum thoroughly before attempting any wet cleaning
- [ ] Clean with pH-neutral upholstery cleaner and blot immediately
- [ ] Test fabric dye on a hidden section and wait for it to cure fully
- [ ] Reposition the chair away from direct sunlight
- [ ] Apply UV-blocking film to windows that face the chair
- [ ] Get a reupholstery quote if the frame is solid and the fade is severe
